

To: Campaign workers and interested parties  
From Peter Griffin Windham Town Moderator

There is a major snowstorm in the forecast beginning this evening and lasting through Wednesday.

Expected snowfall will be 8-12 inches, wind gusts over 35 MPH.

The election will be held as scheduled, March 14, 2023 from 7am-8pm at Windham High School.

I have also reviewed the placement of campaign workers outside the building.

This was done after consultation with town and school officials as well as school board members, town selectmen and fire officials.

The area designated for those wishing to campaign will be on the grass side of the ten-foot wide sidewalk. The area will be marked by barriers that were used in the general election last fall. Enough open space exists that will accommodate this change.

For safety reasons the area originally designated along the front of the building needs to be kept clear of snow resulting in the change.

It has been the custom in the past for various campaigns to erect tents. The WHS site is historically windy and that combined with forecast winds over 35 mph the tents need to be secured with weights to prevent them from becoming a safety hazard.

Thank you for your cooperation with this matter.

Sincerely,

Peter Griffin
